TECHNICAL SKILLS

WORK

2021 - Present

StraightUp Solar

Freelance Graphic Design

Working under the direction of the Art Director I create and edit a variety of layouts always making sure to keep within the StraightUp Solar branding in typography, imagery, and color.

2012 - 2019

iU Creative (Formerly known as Triune)

Senior Designer & Front End Developer

Lead designer on print, digital, video, web design, social media content for medium to large scale projects. UI/UX web design from wire framing, prototyping to final design working in photoshop, dreamweaver, employing css, html5, and javascript/Jquery. Clients include St. Louis Public Library, Field House Museum, Campbell House and Birthright.

2016 - 2019

Alexander Manufacturing

Freelance Designer

Design print and digital content for marketing and sales. Concept, design and render photo realistic promotional and retail products presentations for major clients including Anheuser Busch, Coca Cola Company, and Caribou Coffee.

2013 - Present

St. Louis Community College (STLCC)

Adjunct Graphic Design Professor/Design Department Coordinator
Computer Art Studio / Graphic Design I & II / Web Design 1 & II

2019 - Present

St. Charles Community College (STLCC)

Adjunct Graphic Design Professor
Digital Art Studio / Web Design

Develop engaging visual design classroom and online curriculum including lectures, video tutorials, skill building projects. A big focus was to guide and challenge students both with limited to highly proficient knowledge of course subjects. Incorporated lab times in all classes with one-on-one sessions. Emphasis on creative problem-solving, design theory and strengthening technical application skills. Guided students in developing their design career path.

Collaborated with art department chair to schedule courses and oversee, manage and hire other design instructors.
